Digital Check Promotes Glenn Embury to Vice President of Operations

-- Experienced professional leads growth at manufacturing subsidiary of Digital Check Corp.--

Rancho Cucamonga, Calif., Sept. 12, 2007 – Digital Check Corp., a leading provider of electronic check scanners for the distributed check capture industry, announced the promotion of Glenn Embury to Vice President of Operations at Image Capture Technologies, Inc. (ICT), the manufacturing subsidiary of Digital Check and also the center for engineering, research and design.

Embury is responsible for leading ICT's growth and profitability through manufacturing efficiency, high quality automated test processes, global partners and state-of-the-art product designs that meet the growing technical and cost objectives of the financial industry. Embury also coordinates with and manages ICT's manufacturing partner in Ueda, Japan.

Embury has more than 28 years of international, technical and business experience. He joined ICT in September 2002 as General Manager, responsible for day-to-day operations. Prior to joining ICT, he was Vice President of Engineering at Fujitsu BCS, where he managed nearly 80 professionals in design of software, hardware, test technologies, product qualifications and design drafting for Fujitsu's high technology telecommunication products. Before that, Embury was Director of Manufacturing Engineering/Technologies and was responsible for manufacturing efficiency, cost reduction, factory automation and quality improvement. Embury received the first "Fujitsu Limited President's Award" given outside of Japan for innovation and development of a new paperless assembly aid system. He began his career as a test engineer at Fujitsu BCS designing automated test equipment.

“Glenn has been instrumental in every aspect of our business and has shown exceptional leadership skills over the years,” said Phil Barboni, President of ICT. “He has worked diligently to lead and manage operations and is most deserving of this promotion. I look forward to his continuing contributions to the company’s growth.”

About Digital Check

Digital Check Corp. is a leading manufacturer of distributed capture check scanners for branch automation and remote deposit capture applications. Digital Check’s TellerScan® series of electronic scanners provide the highest quality images, MICR accuracy, reliability and lowest cost of ownership within the industry. It was the first company to introduce a desktop distributed check capture device for the payments industry, first to deploy at a teller window in a top 10 U.S. bank and first to establish U.S.-based manufacturing. The company’s scanners are available worldwide through a network of more than 70 Authorized Solutions Providers and are supported by Digital Check’s comprehensive fulfillment, training, support, warranty and repair services. For more information call 847-446-2285 or visit the company’s website at www.digitalcheck.com.
