Silver Bullet Technology Certifies and Supports Digital Check's TELLERSCAN® TS240
- Latest enhancements to TS check scanner series compatible with Ranger® API software -

PENSACOLA, Fla., Nov. 18, 2009 – [Digital Check](http://www.digitalcheck.com) (www.digitalcheck.com), a provider of desktop check scanners and remote deposit capture technology to the financial industry, announced that Pensacola, Fla.-based [Silver Bullet Technology](#) has now certified and supports Digital Check's recently launched [TellerScan® TS240](#), a check scanner designed for high-volume institutions, with its [Ranger® API](#) software solution.

By adding support for the TS240, Silver Bullet's Ranger, the universal API, now provides support for Digital Check's entire TS series of scanners. TS240 enhancements that are supported by Ranger include:

- High speed, non-contact image cameras (300 DPI);
- Expanded input feeder and output pocket capacities (100 documents each)
- Increased scan speeds (50, 75 and 100 DPM models); and
- An intelligent front-franking stamp option

"We are excited to announce Ranger support for Digital Check's TS240," said Jamille Ellingson, national account executive for Silver Bullet. "The TS240's high-speed, intelligent design provides a compelling choice for retail banks and the RDC customer."

"Silver Bullet's support of the TS240 ensures ease of deployment for financial institutions looking for advanced scanner capabilities without increased costs," said John Gainer, executive vice president for Digital Check. "The TS240 was built upon the successful framework of the TS230, increasing ease of use and ease of support, delivering a hassle-free user experience. Imaging, input feeder and scan speed improvements also provide financial institutions with time- and cost-savings benefits, requiring less labor from staff."

Silver Bullet's Ranger software allows customers to use virtually any item-processing software with virtually any check-scanning hardware. Application providers who already use Ranger API are now able to offer rapid support for the TS240 for branch or high-volume RDC clients. New application providers who choose to develop to the Ranger API will be able to support the full line of Digital Check products.

About Silver Bullet Technology

Pensacola, Fla.-based Silver Bullet Technology works directly with financial institutions, scanner manufacturers and software vendors to make check scanners plug-and-play compatible with existing software solutions. For more information, visit www.sbullet.com.
