Options for expediting a warranty repair:

Digital Check offers an option to either expedite the repair of the scanner or exchange the unit for a refurbished unit via next day delivery for an additional fee.

There are two expedited repair options designed to provide factory warranty repair service for those customers requiring asset tag tracking or who prefer to retain their existing scanner and need it returned quickly. A typical scanner repair takes 5-7 days to complete and 3-5 days for standard ground shipping. The expedited repair will be completed and the scanner ready for shipment the same day via customer specified shipping method if the scanner is received by 8:00 AM PT or next day on scanners received after 8:00 AM but before 2:00 PM PT. The customer is responsible for shipping the scanner to and from the factory. Optional fees apply and availability may be limited.

The exchange option is designed to provide a replacement scanner the next business day in exchange for the defective scanner. The replacement scanner is shipped via overnight and a shipping tag is included for return of the defective scanner via standard ground.

Exchanged scanners are refurbished scanners that have been repaired and tested and meet the original product specifications. Each exchange unit contain the following items:

1. Scanner
2. Power Supply
3. Easy exchange Instructions
4. Pre-Paid Shipping label for the return of the broken unit

Units returned for repair are tested, repaired, inspected for quality control and re-packaged before being returned to the replacement pool for future use as a replacement unit. NOTE THAT BY USING THIS PROGRAM THE CUSTOMER AGREES TO RETAIN A REFURBISHED REPLACEMENT SCANNER INSTEAD OF THE ORIGINAL SCANNER. THE ORIGINAL RETURNED NONWORKING SCANNER WILL NOT BE RETURNED TO THE CUSTOMER AND SHALL BECOME THE PROPERTY OF DIGITAL CHECK. DCC certifies each replacement unit to meet new production quality standards and guarantees units shipped from the 'replacement pool' are in new or like new condition and in good working order.
