SmartSource[®] Pro Elite The Secure Choice®

The SmartSource Pro Elite includes all the features that make a scanner ideal for teller and remote deposit capture applications, including a small footprint, durable design, high-speed capture, and industry-leading MICR accuracy and image quality on checks and other documents.

ID CARD SCANNING

Features two-sided ID card capture using 600 dpi image sensors that produce high-resolution color or grayscale images.

AUTOMATED CLEANING

Proper cleaning is the easiest - but most effective - way to prevent paper jams, double-feeds, image-quality problems, and unnecessary repairs on your scanners. Digital Check's automated cleaning feature makes it simple by giving a mechanical assist to your front-line operators.

An indicator light glerts users when it is time to clean. Use the Smart Button to activate cleaning mode, insert a cleaning card and the scanner performs a unique cleaning sequence that scrubs the track and cleans the sensors.
