

- Fast and Quiet Scanning
- Intuitive Design
- Small Footprint
- Exceptional Image Quality
- Ultraviolet Image Capture

## Simple. Affordable. Durable. Proven.

The award-winning CheXpress CX30 is the only bank-quality check scanner offered at a small business price. This stylish and quiet single-feed scanner is the perfect device for lower volume check capture environments.

### Worry-Free Reliability

Our scanners are engineered to last. The CX30 will process over a million items during its life, which is the highest duty cycle of any scanner in its class.

### The Ultimate in Low Maintenance

Maximize productivity and avoid hardware headaches. The CX30's simple transport design means minimal user maintenance is required.

### Here, There, Anywhere

We know desktop real estate is at a premium. The CX30's economical footprint and flexible cable management system means you won't have an issue finding it a home in your workspace.

### Pass Through Feed Option

Users can choose between "scan and return" or "pass through" scan modes. With "pass through", scanned items follow a straight paper path and exit through the rear of the scanner. Ideal for kiosks and other self-service settings.

### Extremely Fast, Remarkably Quiet

At a rated speed of one second per scan the CX30 makes quick work of any deposit. Concerned about noise? Don't be. The CX30 is remarkably quiet and suited for any work environment.

### Image and MICR Quality is Everything

Featuring high performance front and rear image cameras with dual pass MICR read-head capability, the CX30 is truly in a class of its own. With our special document handling technologies, even the most challenging money orders and checks written with gel pen ink are a snap to process.

### Encrypted Card Reader

The CX30 becomes a complete merchant check imaging and credit card payment processing machine with the addition of the optional DockXpress encrypted card reader. Designed to fit underneath any CX30 scanner, the DockXpress provides the strongest security for your credit and debit card transactions by encrypting sensitive data as soon as the card is swiped.

## Optional CheXpress Add-ons

### DockXpress

Designed to fit underneath any CX30 scanner, the DockXpress provides the strongest security for your credit and debit card transactions by encrypting sensitive data as soon as the card is swiped. Merchants can accept both checks and cards in one space-saving device, or tellers can use it to scan magstripe enabled ATM cards or IDs. The DockXpress is PCI compliant and supports the Point-to-Point Encryption (P2PE) standard. For more information, go to: [www.digitalcheck.com/dockxpress](http://www.digitalcheck.com/dockxpress)

### Digital Check Advisor

This remote monitoring and management software solution allows organizations to remotely monitor hardware assets so problems can be resolved before customers are impacted. Equipped using the latest in geo-location technologies, Advisor provides real-time intelligent tracking of each scanner deployed. Automatic alerts provide immediate notification in order to prevent fraudulent or unauthorized deposits. Implementing Advisor enables organizations to ensure a positive customer experience while responding to growing internal demands for secure monitoring of deposits across multiple remote channels. For more information, go to: [www.digitalcheck.com/DCAdvisor](http://www.digitalcheck.com/DCAdvisor)

## Image Enhancement for Difficult Items

Most image quality failures today are generated by a handful of documents that are notoriously difficult to image; Money Orders, security checks, and items with bright backgrounds or busy designs. Digital Check specializes in tackling these problem documents with our advanced image capture technology. Utilizing special document handling techniques, we identify and filter out the background noise to capture what's important.

Experiencing an issue with a particular type of check or money order leading to exception item processing? This is the solution for you. Banks and Credit Unions around the world have reported significant cost savings by minimizing errors and Day-Two research and repair with Digital Check. ## PRODUCT SPECIFICATIONS

### Size

H: 7.47" (18.97 cm) W: 3.92" (9.96 cm) L: 9.38" (23.83 cm)  
Weight: 3.95 lbs. (1.8 kg)

### Document Handling

Entry Pocket: 1 item at a time  
Exit Pocket: 5 items if Pass Through mode is enabled  
Document Height: 2.12" - 4.25" (54 - 108 mm)  
Image Capture Height: Up to 4.177" (106 mm)  
Document Length: 3.19" - 8.98" (81 - 228 mm)  
Document Weight: 16 - 28 lb. bond (60 - 105 gsm)  
Document Thickness: 0.0032" - 0.0058" (0.081 - 0.147 mm)

### Printer Option

Single line inkjet printer with user replaceable cartridge

### Franker Option

User replaceable red ink stamp

### MICR Recognition

(Magnetic Ink Character Recognition) for E13B (North America) and CMC7 (Europe)  
Optical Character Recognition to enhance MICR Read, further enhanced using DCC's Best Read™ API function

### Connectivity

Mini-B USB 2.0 cable and power supply included

### Camera Specs (Scanning Method)

Concurrent Two-Sided Duplex  
Resolution: 300 dpi (850 Pixel Linear Array)  
Light Source: Tri-Color LEDs  
Optional Front Ultraviolet Camera

### Supported Operating Systems

Windows® XP, Windows Vista® (32 / 64 bit),  
Windows 7® (32 / 64 bit), Windows 8® (32 / 64 bit)  
Mac OS X® (10.6 or newer)  
Ubuntu® 7.05, Red Hat AS - Version 5, OpenSuse

### Standard Warranty

1 year warranty

### Electrical

Power Consumption: 24 Watts  
Input Voltage: 100 to 240 VAC, 50/60 Hz  
Separate Standard Power Supply: Auto sensing for voltage

### Environmental

Operating Temperature: 60° - 90° F (15° - 32° C)  
Operating Humidity: 35 - 85% non-condensing

### Certifications

Safety: UL, cUL, CE  
FCC: Class B (Industrial, Business or Home)  
EMC: IEC CE  
Efficiency: CEC V 115V - Power Supply  
RoHS Compliant
